Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

As per Claims 1, 10, 18, 19.

The prior art of record, specifically Goss et al (6,704,766) or "VMware Virtual Platform" in view of Duvvoori (6,201,438) or Hauser does not disclose:

tracking concurrent uses of a computer program across a plurality of logical partitions in a logically partitioned computer, each logical partition includes an operating system resident therein, and a license manager resident in a first logical partition, accessing the partition manager responsive to a request to use the computer program in the first logical partition and selectively denying the request to use the computer program in the first logical partition if permitting the request would violate a concurrent use software license associated with the computer program.

The claims that depend from the above are allowable for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
